Education

Vellore Institute of Technology

B.Tech in Computer Science Engineering (Cyber Physical Systems), CGPA - 8.86/10.0

2020-2024

Chennai, IN

Experience

PepsiCo

August 2024 - Present

Solutions Engineer

Hyderabad, IN

- **ERP Chatbot:** Contributed to the development of an enterprise RAG chatbot serving multiple SAP functional teams, enabling natural-language querying of FSDs, TSDs, process guides, and resolved tickets across SAP modules, reducing knowledge retrieval time by 90%.
- **GRC Copilot:** Contributed in developing a LangGraph-based GRC Copilot that automates SAP emergency access validation by correlating justifications with usage logs and generating AI-driven risk assessments and audit-ready reports.
- **EvidenceIQ :** Built an AI-powered QA validation platform integrating ADO/Github Enterprise, OCR capabilities to automate test execution evidence validation and save time during audit processes.

Projects

Enterprise Agentic RAG | LangChain, LangGraph, Agentic RAG, Python, StreamLit, FastAPI

- Built a production-grade Agentic RAG system with a multi-step agent architecture by intent detection with a multimodal document ingestion, and an LLM gateway with automatic fallback routing. Added guardrails to filter the inputs before synthesis, along with a dedicated evaluation suite to measure retrieval and response quality, plus full observability and tracing across the pipeline.
- Containerized the FastAPI backend plus UI and deployed them on a managed cloud container orchestration service behind a load balancer with auto-scaling. Set up a CI/CD pipeline for automated build, testing, and deployment

Autonomous Sales Intelligence Agent | LangGraph, MCP, FastAPI, Streamlit

- Built a multi-agent SDR system that autonomously researches target companies and prospects through parallel, tool-using LangGraph agents orchestrated via MCP servers - pulling and synthesizing web, leadership, news, and CRM data in real time to produce lead qualification scores and personalized cold outreach.
- Reduced manual prospect research from hours to under 30 seconds. Deployed with a FastAPI backend and StreamLit frontend.

Certifications and Achievements

- AWS Certified AI Practitioner
- AWS Certified Cloud Practitioner
- SAP Certified - Generative AI Developer
- SAP Certified - Solution Architect
- Postman API Student Expert

Publications

- AI-powered virtual therapist: for enhanced human-machine interaction | ISBN: 9781839536953

Skills

Languages: Python, Java, C++

AI: LangChain, LangGraph, RAG, Prompt Engineering, FAISS, OCR, Agentic AI, SAP AI, MCP

Backend: FastAPI, Django, Node.js, Express

Cloud: AWS, Google Cloud

Tools: Git, Postman, Jupyter, Azure DevOps

ERP: SAP CRM, Order-to-Cash (OTC)

Extra-curricular achievements

- National-level Spelling Bee champion
